

# Lunch Symposium

## *Emerging Trend and Innovative Therapy in Dry Eye Syndrome*

Mar 26, 2016 (Sat) 13:00-14:00  
Room 201AF

**Chair**

**Dr. Lin-Chung Woung**  
(Taipei City Hospital ; Taiwan)

As the progress of science and technology, people enjoy the convenience of high-tech products. However, dry eye has therefore turned out to be the most common eye disease due to prolonged use of the eyes. Symptoms are worsened by eye-strain activities, like prolonged reading, computer usage, driving, or watching television. In this seminar, we' ll update you with the most advanced technology and research on the diagnosis and treatment of dry eye disease.

**Speakers**

**Dr. Chi-Chin Sun**  
(Chang Gung Memorial Hospital ; Taiwan)

**Overview of  
Dry Eye Syndrome  
in Taiwan**

**Dr. Ching-Hsi Hsiao**

**State-of-the-Art  
Management of  
Dry Eye Syndrome**
